Subject: Support for a public Greenway connecting Kingswood, Charfield and Wotton

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Sir/Madam,

I would like to voice my support for the creation of a public Greenway connecting Wotton, Charfield and Kingswood. I would very much like to see support from the local councils for it to be delivered.

Additionally, I would like to give strong support to any initiatives that would help the Stroud District and areas contained therein to become Carbon Neutral by 2030. I would strongly support any initiatives that help to:

- Reduce emissions through transport (such as the Greenway, better communication of bus routes and endeavours to re-open a station in Charfield)
- Reduce emissions through home energy use (including the support of local energy generation and networks, better home and commercial building insulation, including schools)
- Reduce emissions by enabling residents to grow their own food or shop local (further allotments)
- Reduce emissions through land use (including tree planting initiatives)
- Reduce emissions from food waste (ensuring we continue the food waste collection scheme)
- Reduce unnecessary single use plastic within the district

Kind Regards,
[REDACTED]
