

LO13

Dear sir/ Madame,

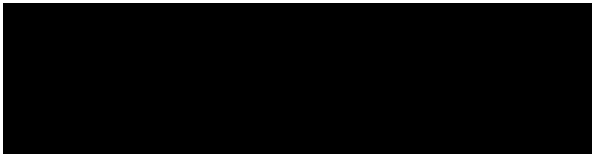

I object to the planning both in Hardwicke and Stroud constituency. I've always lived in Stroud my whole life and have always paid taxes. It's apparent that this local plan is a complete disaster and will only cause problems such as flooding, decrease in nature and the beautiful views of the valleys disappearing before our eyes. To start with the plan for Hardwicke would be total loss to our small community and will also ruin our rural character. We already have witnessed too much development like the Pilot, the estate up by Springfield Road in fact two/ three were created on greenfield sites. But we are basically being taken advantage by Gloucester which is heavily built up to a point that it's not representable and we cannot let Stroud go in that direction.

This plan will tear communities apart all around Stroud. Damage community cohesion and will have a devastating impact on the environment. Plus I love and feel inspired by the valleys around Stroud but the more we build the more it's disappearing at a rapid pace.

Gloucester May have dumped it on us but let us do the right thing and turn it down as they will only take advantage of you so they can damage Stroud. By going ahead will have a devastating impact on floods as be more easier as concrete. The drains are appealing and so the system. We pay our taxes and have always so I want my voice heard as this is matter what issues to me.

I totally object to the plans! Believe we should make a law to prevent any more building in the Stroud constituency. Once it's gone there is no going back.

Your sincerely,
