To whom it may concern,

As a resident in Charfield for 40+ years, I would have loved this WCK Greenway to have already been in situ when I moved to the area as I love walking and cycling. Whenever I wish to go in to Wotton, I always go by car as the main road is extremely busy and I think totally unsafe to walk along. It isn't the distance I have been concerned about but my own personal safety! As you may be aware, the availability of buses along this route is very limited. If this safer way of accessing Wotton was implemented, there would be far less traffic, therefore the CO2 emissions would be less, and it would encourage a healthier lifestyle for people.

I am really pleased to read in the consultation paper that the Greenway cycling and walking route is mentioned subject to further feasibility work - I certainly hope it will happen in my lifetime *and* whilst I would still be fit enough to take advantage of this facility. The younger generations would hugely benefit by using this to get to the town, Community Parc and even school.

I *strongly* believe this project is an excellent idea and I am hoping it will be supported with positive actions resulting in the WCK Greenway being implemented.

Yours Sincerely,

[REDACTED]

P.S. Could you please acknowledge that you have received this e-mail.
Thank you.
