Dear Local Plans Team

I write further to the latest consultation on the Local Plan – Limited consultation on Stroud District Local Plan Review. Stonehouse Town Council' Environment committee has now met to further discuss the local plan and would comment as follows:

'The town council strongly supports the 2030 Climate Strategy and changes to the sustainable Transport strategy, in particular the active travel corridors from northwest of Stonehouse to Stonehouse and Maidenhill school. The town council wishes to also stress the importance of the reopening of Bristol road station. However, council feels the highway mitigations are not compatible with either of these strategies'.

The town council hopes these comments can be noted. Thank you
