"To the Planning Authorities,

I have lived in the village for several decades and am delighted to see that the land behind Walk Mill Lane is being considered for development.

Years ago, a large amount of land around the yard was developed into a residential area, now for the first time in many years this land has become available and this should be regarded as a golden opportunity to finish what was started by the planners many years ago. Passing this land for building would finally enable the completion of this residential area.

Myself and other local residents living close by the Yard, currently operated by Soils HS, have been complaining for some time now of the excessive dust and noise coming from the Yard. This is genuinely affecting the quality of life of the adjacent residents and undoubtedly causing health issues.

I do believe granting planning of this development would go in line with the priorities set out by the South Gloucestershire authorities, it would enhance and improve the quality of life in Kingswood , create jobs , offer apprenticeships to enable low skilled employees to access a career and a better future as well as offer additional affordable housing and provide more opportunities for downsizers without relocating miles away .

I look forward to your reply.

Yours Sincerely,
