Subject: The local plan development proposed at Wisloe Green

Categories: Consultation response

I wish to object to the development proposed for Wisloe Green. The plan would create significant increase in urban sprawl and would significantly damage the rural setting of Slimbridge and Cambridge but would do nothing to increase employment opportunities in the area. Consequently a huge increase in traffic would be inevitable most of it onto the A38 going to Gloucester or Bistol. If development must happen in the area then it should be spread in smaller developments over a much wider area or even better to areas where good employment opportunity exist. The current proposal tries to solve one problem but creates a whole series of others. [REDACTED]
