Dear Sir/ Madam

I understand that you are undertaking a review on the Local Plan to identify land for additional houses.

With the white papers currently being discussed – one on house numbers and the methodology for this – currently Stroud DC has to build 456 houses per year, with the revised Local Plan, being worked on, the numbers have to increase to 641, but if the new revisions go through Stroud will be looking at 786 per year which is incredibly high.

There is too much being planned in the south of the District, it needs to be dispersed to Whitminster and Morten Valance to relieve the pressure from Sharpness. The number of houses for Sharpness will have a massive impact on the area. Also, there is no infrastructure in Sharpness. Any new development should be a priority on new sites like Whitminster, and Sharpness on a secondary list or consider withdrawing Sharpness from the plan.

Kind Regards
