The 1000 dwellings at North West Cam would require at least 1.5FE New School provision.</p> <p>460 dwellings in the Dursley/Cam area creates approximately 138 additional pupils and would require up to 0.5FE of permanent expansion locally either at an existing school or on a new site.</p>	<p>There is currently a strategic site of 450 dwellings scheduled for Cam which will expand one of the schools. An additional 265 dwellings across 3 sites at Cam will create 80 additional pupils. It would be better had we considered all 715 dwellings together as this would have provided a new school, however as this is not possible a further school will need to expand. 20 dwellings at Coaley creates 6 additional pupils - the school could accommodate these numbers 185 dwellings at Dursley creates 56 additional pupils - the school are already set to expand from the Littlecombe development we may need to consider further expansion. 20 dwellings at Nympsfield creates 6 additional pupils - the school could accommodate these numbers</p>
