Dear sirs

Please find attached our response made following the invitation made in your public consultation. You will see what prepared an overarching response to the Preferred Option Draft as published, with site-specific representations made regarding the potential Strategic Allocations exceeding 500 units - lack of site-specific response on the sites under that size in no way confers that we are less supportive.

This is the most comprehensive set of representations we have yet made to any plan. This reflects the recognition that the District is faced with an unprecedented set of challenges in preparing its plan, while, positively, it has advanced a great deal of important supporting information at this Reg 18 stage. We recognise the investment of time and resource that has gone into the emerging evidence base and it is only right that we respond fully, while there remains time to positively influence the plan and the supporting data.

I trust the attached is helpful to the Council and its other partners and I trust that these can be received and treated as duly-made. I apologise if the presentation is a little "basic". Let me know if you would wish me to create a version on a formal letterhead: this can be done. The Council and its other stakeholders can be assured of our continuing ongoing support.

Yours sincerely

Head of Strategic Development and the Built Environment
