Dear Councillors

As a resident near the proposed Wisloe development I am writing to state that I do not support the Stroud District Council draft local plan of massive development in the Wisloe area.

I do not understand why over three quarters of the district's new housing should be in the Berkeley Vale area, which is not even near the area's main employment hubs. Surely it would make more sense to locate the new housing nearer the employment areas or better still, to actually spread the development over a much wider area, which would massively lessen the impact on the local communities and be better received by local residents. This would have the additional benefit of easing the load on local infrastructure.

Yours
