DEVELOPMENT SERVICES
I object to the proposed development of a very large number of houses off Ganzel Lane, Site PS 29.

The traffic on the Durley Tetbury road has increased a great deal in recent years.

Many motorists are using the Stinchcomb Hill Golf Course road as a rat run. This is a single track road with a childrens play area + sculpture trail at Twickenham Woods. (No off road parking) Also a camp + caravan park at Aden Plains + a Community Project at Breakheart Quarry. All generating considerable traffic + the Golf Course traffic.

We have not felt the full effect of the Littlecomb development yet.

Durley is also very short parking. So if people manage to get to Durley they will be unable to park.

Yours
