SDC are totally ignoring the NPPF

They are intending to use land that is not and never has been Grade 3B and ignoring the fact that the ALC was seriously flawed and has been proven by the local farmers.

By continuing with their plan to use PS37 SDC are going against their own policy of preventing to coalescence of the existing villages, namely Slimbridge Gossington cam and Cambridge with Dursley.

SDC will destroy the wildlife habitat which is renown in this area, namely Slimbridge.

Since my relocation to this area, I have noticed the vast amount of flooding in the surrounding fields and roads and this will surely exacerbate if SDC chose to build on this land and cause major problems to the residents

The beauty of this area will be destroyed by the implementation of PS37, it is absolutely disgraceful to continue with this when there are alternatives available. I have witnessed in my 94 years of existence,

how the destruction of our green and pleasant land has been affected by the so called experts making poor decisions. Take heed and please don't be another statistic making the same mistake

The high pressure gas line must be considered, any new houses will be hemmed within the boundary of the M5 the gas line the river and the A38, so an explosion would have devastating effects to any new planning and the existing villages.

Traffic would increase as would the noise and pollution. Even with my impaired senses I can notice the traffic noises for the M5 and A 38 and even the railway. Building in this area would significantly increase this. Surely lesser developments on brownfield sites, would have less of an impact to all.

It would destroy the views in and around AONB
