Subject: High Pressure Pipe Line runs through the land of proposed development at Wisloe

Follow Up Flag: Follow up
Flag Status: Flagged

Good afternoon,

The presence of a High Pressure Pipe Line through proposed development at Wisloe doesn't seem to appear in any of the Local Plan documents, assessments or surveys so I thought it useful make you aware of it. It will have a significant impact on any development as houses can not be built over it or close to it.

Please refer to the email and map from Wales & West Utilities Ltd.

This is another good reason to remove this proposed development from the local plan

Regards

[REDACTED]

Thank you for your call regarding the location of our pipeline.

Please see attached the screenshot I have taken from my map. This is only to be taken as an approximation of the position of our pipe. The high pressure pipe appears on the map as the orange line going through the grey gridded area and low pressure appear as the thin red lines.

I will forward your information on to our plant protection team and request that they get in touch with you on Monday to provide more accurate information and guidance.

Many thanks,
[REDACTED]
