5. Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

The proposed Wisloe development is in conflict with SDC's commitment to carbon neutrality by 2030, due to an increase in domestic and transport emissions and by impacting agricultural land.

False evidence has been used to declassify the site and, while SDC has accepted this, no action has been taken to correct the classification. Correction to ALC Grade 2 is urgently required, giving this land protection from development.

The proposed development on greenfield land along the A38 corridor will have the effect of severely altering the nature of the area, changing and almost unifying Cam and Slimbridge village (Tier 3b). This will approach urban sprawl, while Stroud is designated a Rural District.

The proposed site will spoil views in and out of the Cotswold and Forest of Dean AONBs in contrast to SDV's commitment to protect these areas and views. It will destroy the peace of the area and will negatively affect tourism, reducing the viability of local businesses. It will reduce the amenity value of the area and result in more people being crammed into smaller green spaces for recreation. This in turn will devastate natural habitats and reduce air quality.

There are no credible proposals to provide the infrastructure necessary for such a huge influx of new residents. Essential funding is not identified. Note the failed Homes England Bid. Longer traffic queues and lack of/overcrowded facilities will erode the desirability of the proposed housing, as well as affecting the amenity value for existing residents, impairing their quality of life.

Duty to co-operate: the limitations of your pro forma, the fact that you will not accept any form unless 100% correctly completed and the failure to facilitate comments via all available means (e.g. the apparent requirement for a signature, which deters electronic submission) all point to your desire to eliminate, rather than invite, public consultation. This may invalidate your procedure.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
