Sir

I am writing to you to formally to withdraw the attached response to the emerging local plan consultation. I completed the plan in good faith having been told that certain undertakings had been agreed between Painswick Parish Council and Stroud Council. I now understand that these undertakings have not been taken forward for whatever reason. In addition I also understand that the evidence used in supporting the change to Tier levels in your study on the subject was both outdated and incorrect.

I am disappointed but, more importantly, concerned that this will result in a lack of confidence in the planning process by the community.

I look forward to your confirmation that your records on the Emerging Local Plan have been appropriately amended and my opposition to the proposed change in Tier levels outlined in the Draft Local Plan are recorded.

Yours respectfully
