Subject: Fwd: PS29 - Proposal objection

Categories: Consultation response

Dear Sir / Madam,

I would like to formally lodge my opposition to the proposed new housing developments in Cam / Dursley.

As a resident in this area the number of new properties already built has significantly changed and Impacted this area, and not for the better! It is an area of natural beauty that you the government seem happy to destroy Once it's gone we will never get it back. From a practical perspective there just isn't enough infrastructure in this area to support more homes, it's already virtually impossible to get a Dr's appointment and the roads / car parking are a disgrace. May be focus on sorting out the potholes!

If this new development goes ahead you will be turning this wonderful part of the world into another Bradley Stoke which nobody wants, now or ever.

Please consider the people who live here, that you represent and their requests before forcing us to endure a distraction of our environment and community buy this horrendous plan.

Please acknowledge receipt of this objection.
