Dear Sirs

I wish to register a few concerns regarding the above development at Painswick for 20 houses. My main concern is the increased usage of Vicarage street as a means of accessing the development, unless access is made onto the A46. As a resident of Vicarage Street I know all too well the narrow lane is difficult to navigate given the parked vehicles. This development could mean an extra 40 cars regularly using the lane which in my opinion would make life very difficult indeed for existing residents and of course the residents of the new development themselves.

Furthermore I am sure the development will not provide 40 car parking spaces so there will be an inevitable increase of parked vehicles on the lane around the recreation ground which is very restricted in size. This will increase the on street parking congestion in the area.

Regards
